Objective

Enthusiastic and detail-oriented **Electronics & Communication Engineering student** with a strong foundation in **Analog VLSI, Circuit Analysis , analog circuit design**. Eager to apply circuit designing abilities to develop solution.

Education

Bachelor of Engineering in Electronics & Communication Engineering

KLE Technological University, Hubballi — *Graduating 2027*

CGPA: 9.3/10

Technical Skills

Programming Languages: C, Embedded C, Python (Data Handling, Automation)

Design Tools: Cadence Virtuoso , Matlab , Simulink , LT spice

Core Competencies: Circuit Analysis , Analog Electronics , Designing of analog circuits , analog and CMOS layout

Projects

1. Linear regulator based mobile charger with protection circuit

- Built a regulated 5V output mobile charger with rectification , filtering and voltage regulation stages.
- Integrated short-circuit protection using BJT and MOSFET based circuits.
- Added multiple outputs based on current requirement and each follows different short circuit protection topology.

2. Closed loop onchip DC-DC buck converter (ongoing)

Tools: Cadence virtuoso

- working on designing of the dc-dc buck converter with feedback control for the step-down applications.
- Implemented designed open-loop circuit with all the designed blocks.
- Implementing Current Mode Control topology for the improved line regulation and stability with better feedback control.
- Working on the design of the feed back path.

Workshops & Training

Completed Analog Electronic Circuits NPTEL Course with Elite grade

Offered by IIT Delhi under the NPTEL Domain

Samsung Fellowship Trainee – India Semiconductor Workforce Development Program (ISWDP)

Offered by IISc Bangalore & Synopsys

Leadership & Volunteering

- **Volunteer Teacher** — Govt. Primary School, Hubli
- **Mentor** — Guided 1st-year students in embedded systems & electronics projects (Tinkering Lab)

Focused on innovation in embedded and electronic systems, combining technical precision with a drive for continuous learning and impactful design.
